- Bachelor of Science in Computer Science and IT (BSc CSIT)

Expected Graduation: 2027

LANGUAGE

- Nepali- Native
- English-Intermediate (Professional Writing and Reading)

SKILLS

- Trading experience on NEPSE using real capital
- Critical thinking and data-driven decision making
- Time management and discipline from real market exposure

PROFILE

Passionate BSc CSIT student with 2+ years of hands-on experience in technical trading in the NEPSE market. Strong understanding of chart patterns, indicators (RSI, MACD, MA), and market psychology. Skilled in using TradingView, Excel, and Python for data analysis and visualization. Looking to apply analytical skills and stock market knowledge in a dynamic financial environment as a Technical Analyst Intern

WORK EXPERIENCE

Independent Technical Trader

Self-Initiated | NEPSE (Nepal Stock Exchange)

- Actively traded stocks on the NEPSE platform using technical analysis strategies.
- Applied indicators such as RSI, MACD, Moving Averages, and Volume Analysis to make informed trading decisions.
- Analyzed candlestick patterns, chart trends, and breakout setups for daily and swing trades.
- Maintained a personal trading journal in Excel, logging trade history, performance, and strategy outcomes.
- Regularly tracked macro and microeconomic news impacting the Nepalese stock market.
